

Graeme Clark joins Link Microtek as calibration and service engineer

techniques.

He has spent his entire career in an electronics manufacturing environment and has over ten years' experience in calibration, repair and related activities.

For further information on Link Microtek's products and services, visit www.linkmicrotek.com.

Link Microtek, the Basingstoke-based specialist in RF, microwave and infra-red technologies, has appointed Graeme Clark as calibration and service engineer.

In addition to calibrating RF radiation safety equipment using the company's in-house TEM cell and associated instrumentation, Clark is responsible for the maintenance and repair of RF survey meters, probes and personal monitors.

Prior to joining Link Microtek, he worked for ASAP Calibration Services, where his duties included calibrating a wide variety of instrumentation, as well as providing support for R&D into calibration
