

## Link Microtek expands SMT team with appointment of Chaxu Lad

Components while successfully completing an MSc in Radio Frequency and Communications Engineering.

In addition to his UK responsibilities at Link Microtek, Chaxu will be playing an important role in developing export business - particularly in India, which is an important territory for the company's Azdec range of infra-red mobile communications systems.

For further information on Link Microtek's products and services, visit [www.linkmicrotek.com](http://www.linkmicrotek.com).

Link Microtek, the Basingstoke-based specialist in RF, microwave and infra-red technologies, has recently expanded its surface-mount product team with the appointment of Chaxu Lad as sales engineer covering central and northern England.

He joined the company from Teledyne Defence (formerly Filtronic Defence), where he spent six years as a procurement engineer with responsibility for selecting and managing subcontractors for outsourcing of non-core activities.

Prior to that, he held the position of RF and microwave design and development engineer at Filtronic
